UNITING EDUCATORS. EXPANDING GROWTH OPPORTUNITIES.

**Catalyst is an engaging platform that fosters connection, sharing, and growth for Christian educators.**

This new platform provides opportunities for networking and professional development through: connecting educators, helpful resources, interactive forums, and engaging groups.

*“Catalyst seeks to provide an avenue for professional Christian educators to dialogue about the real work of science education in our world today. I’m eager for engaging conversations about quality science instruction that’s thoroughly infused with Christian perspective.”*

Jon Kroeze,  
Avail Academy, Blaine, MN

*“Live community discussion will make this a rich place for personalized learning, as teachers can share their specific questions and specific best practices on their path of implementing excellent Bible instruction at each grade level, in each content area.”*

Heidi Dean,  
Veritas Christian Academy, Fletcher, NC

**Catalyst** is the platform; you make it a community.  
Get involved and take your biblical worldview-based instruction to the next level.

## BIOLOGOS INTEGRATE

If you teach science in a Christian school, you know how important it is to engage in gracious dialogue around controversial topics. CSI is committed to supporting science teachers in the promotion of the harmony between faith and science in conversations. We are excited to announce that BioLogos, an organization leading the way in gracious dialogue around faith and science, will be joining the Catalyst community as a Group sponsor!

Join the conversation with BioLogos and other science teachers about how we can come together on what unites us and discuss the wonders of the world God has created. Whether you're a CSI member school or not, you can discuss best practices, share resources and lesson plans, and start forums on particular topics.

# High School Bible

## Grades 9-12

Our Bible curriculum for high school is relevant, scholarly, and rich in reformed worldview. Our curriculum calls students to examine their lives and the role they play in God’s kingdom.

### *God's Unfolding Kingdom*

This study of the Old Testament begins by mapping out the “one big story” of the Bible. From there, students learn about the calling of God’s people and of God’s faithfulness to them as a nation and as individuals.

# Walking With God and His People

## Bible curriculum that brings the Word to life

Christian Schools International's Bible curriculum for **grades preK through 8** provides an excellent and engaging course of study of God's eternal Word.

Comprehensive and user-friendly for both teachers and students, *Walking With God and His People* provides multiple enrichment activities that appeal to a variety of teaching and learning styles. The curriculum focuses on God's story and how it has been revealed to his people. Students learn about themes and biblical characters within the historical context of the Bible. The units build on each other over time, providing learners with insight and information on all of God's Word. Our curriculum is written by teachers, for teachers. With their help, we've put together a curriculum that is flexible, thoughtful, and steeped in Christian worldview with a reformed perspective.

*Walking With God and His People* is an academic course designed to study the Bible in depth, including instruction on the use of tools such as footnotes, maps, and concordances. Students learn about the Bible itself—its history and structure—as well as its overarching themes and storylines. They learn how to use the Bible appropriately in order to understand God's will and shape their own lives.

# And It Was Good:

## Teaching Science from a Christian Worldview

*And It Was Good*, available for kindergarten through middle school, provides sample lessons that fully integrate the Christian faith with science and engineering instruction. The lessons provide a template for teaching that can be used with any science curriculum, Christian or secular.

Seamlessly integrating faith with current science education standards and practices demonstrates to students that every inch of creation has been fashioned by God's design. *And It Was Good* provides a model for incorporating Christian worldview into science education without compromising either faith or scholarship.

# Science 2<sup>nd</sup> Edition

Let's find out about God's world!

Science is how we come to understand God's marvelous creation and the systems put in place by his hand.

CSI's *Science 2<sup>nd</sup> Edition* curriculum is a hands-on program that encourages students to become actively involved in scientific discovery. The concrete, creative learning experiences are based in God's Word and will enrich students' knowledge of creation, affirm their faith in the creator, and enable them to use science to the glory of God.

Our science curriculum is available for kindergarten through middle school. Based on teacher feedback and educational best practices, this curriculum helps students and teachers get the most out of each lesson. The goal is to help students become creative problem solvers and to develop a sense of stewardship for God's creation.

## Textbooks include:

- Readings to reinforce the concepts presented in the classroom
- Colorful photographs, illustrations, graphs, and diagrams
- A glossary of scientific terms (with pronunciation guides)
- Questions to promote recall and synthesis of ideas and concepts
- Sidebars with enrichment information
- For grades 3–9: Colored tabs easily differentiate units, and unit and chapter page numbers appear in the table of contents for quick reference.

## Easy-to-use teacher guides include:

- Flexible options for lessons, activities, and cross-curriculum planning
- Student objectives and project ideas; vocabulary; discover activities; and options for reinforcement, review, and assessment
- A list of contemporary science resources for students and teachers
- Blackline masters for activity sheets as well as tests
